### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark V. Muller on 3/8/2007.

The application has been amended as follows:

**Claim 19.** An apparatus, comprising:

a controlling module hardware to control a data flow associated with at least one of a selected number of ports having an actual usage value above a determined average shared resource usage value associated with the selected number of ports sharing a resource, wherein the selected number of ports each use an amount of the resource greater than a guaranteed minimum amount of the resource, and wherein determining the determined average shared resource usage value comprises selecting the selected number of ports by locating at least one port included in a plurality of ports using the amount of the resource greater than the guaranteed minimum amount, determining a cumulative shared usage value based on the selected number of ports, and determining the determined average shared resource usage value by dividing the cumulative shared usage value by the selected number of ports.

**Claim 23.** The apparatus of claim 19, wherein the controlling module hardware comprises a network processor.
